[57] **CLAIM**

The ornamental design for camouflage fabric or similar article, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of camouflage fabric or similar article showing my new design, with an oblong repeat unit being outlined between (1) horizontal plain dashed lines A-B and C-D and (2) the staggered vertical dashed lines which run between lines A-B and C-D. The repeat is a flipped repeat. That is, between horizontal rows, the right and left halves of the repeat unit are reversed, with the edges of the unit shown by (1) staggered dashed lines and (2) dot-dash lines corresponding, respectively, to each other in the drawing;
FIG. 2 is a rear elevational view;
FIG. 3 is a plan view; and
FIG. 4 is a side elevational view.
