UNITED STATES PATENT OFFICE.

AHIRA E. PEARL, OF MANSFIELD, CONNECTICUT.

IMPROVEMENT IN COMPOUNDS FOR EXTERMINATING VERMIN.

Specification forming part of Letters Patent No. 115,512, dated May 30, 1871.

To all whom it may concern:

Be it known that I, AHIRA E. PEARL, of Mansfield, county of Tolland and State of Connecticut, have invented certain new and useful Improvement or Discovery in Compound for Exterminating Vermin; and to enable others skilled in the art to compound the same I will proceed to describe.

The nature of this invention consists in pulverizing and compounding the following ingredients together in about the following proportions:

Take twenty pounds of Persian powder true; four pounds of Jamaica ginger; one pound of camphor-gum. Thoroughly pulverize all these ingredients and compound them together, when it will be complete and ready for use; and in use has proved to be a perfect and reliable vermin-exterminator.

What I claim, and desire to secure by Letters Patent, is—

A vermin-exterminator, the ingredients combined and compounded substantially as set forth.

AHIRA E. PEARL. [L. S.]
