[57] **CLAIM**

The ornamental design for a display station for a data processing system, as shown and described.

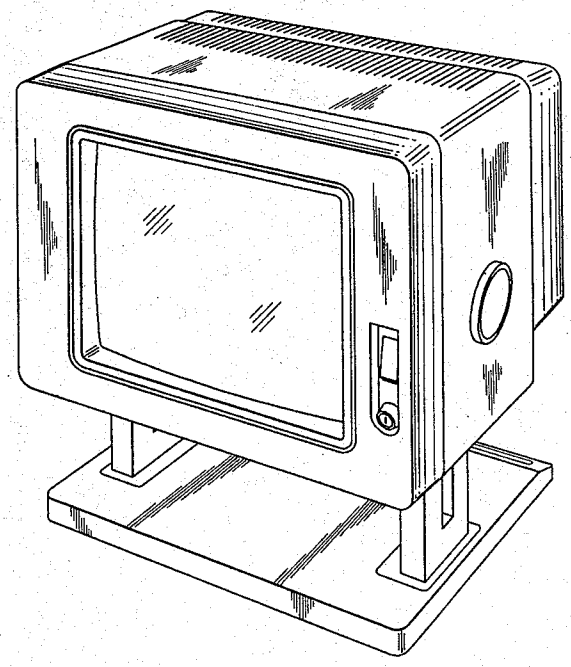
DESCRIPTION

FIG. **1** is a front three-quarter perspective view of a display station for a data processing system incorporating our new design.

FIG. **2** is a rear three-quarter perspective view thereof, the vertically movable display being in a lowered position on the legs.

FIG. **3** is a side elevation thereof.

The display head is movable vertically on the upstanding slotted legs. FIG. **1** shows the head in a raised position, while FIG. **2** shows it in a lowered position.



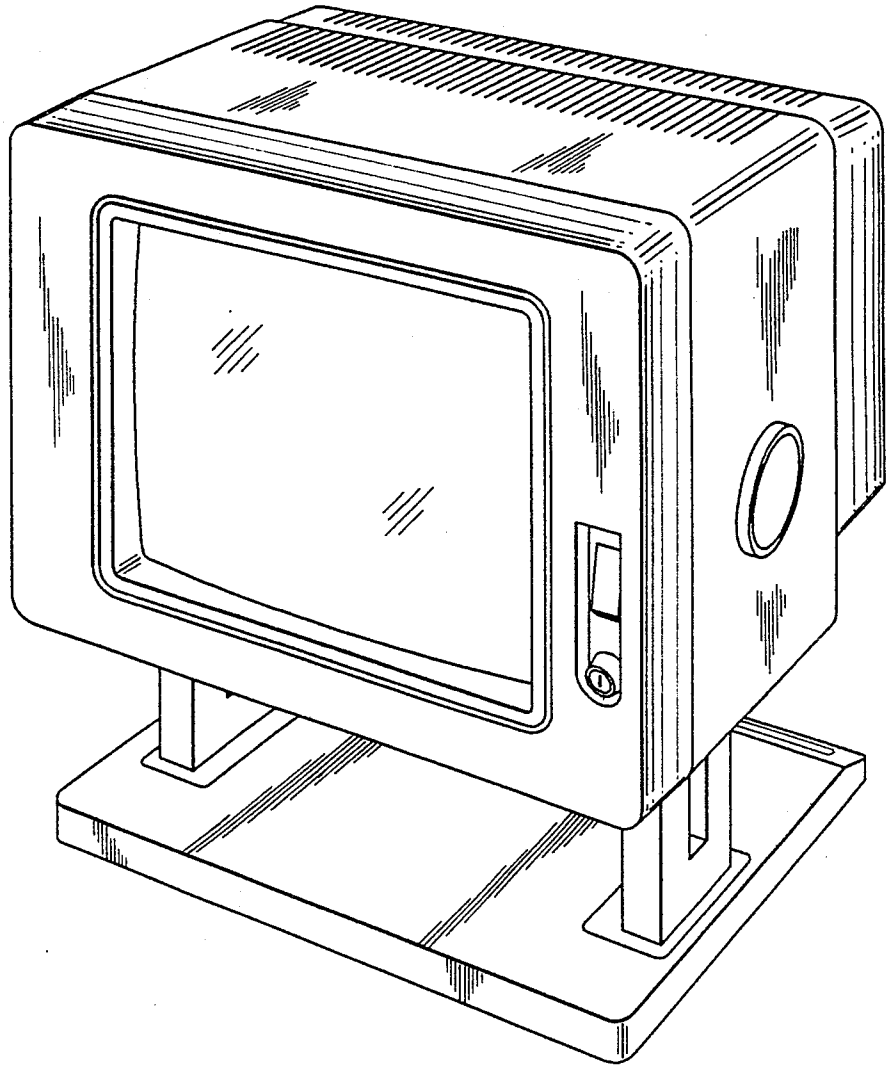


FIG. 1

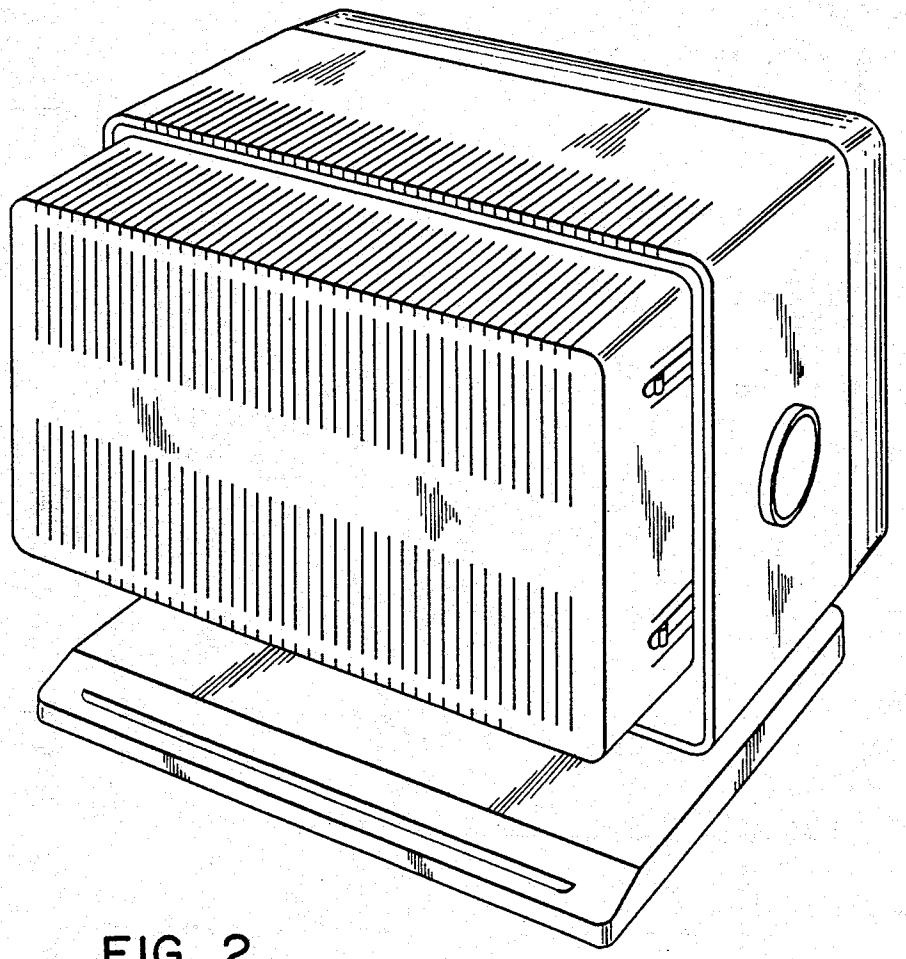

FIG. 2

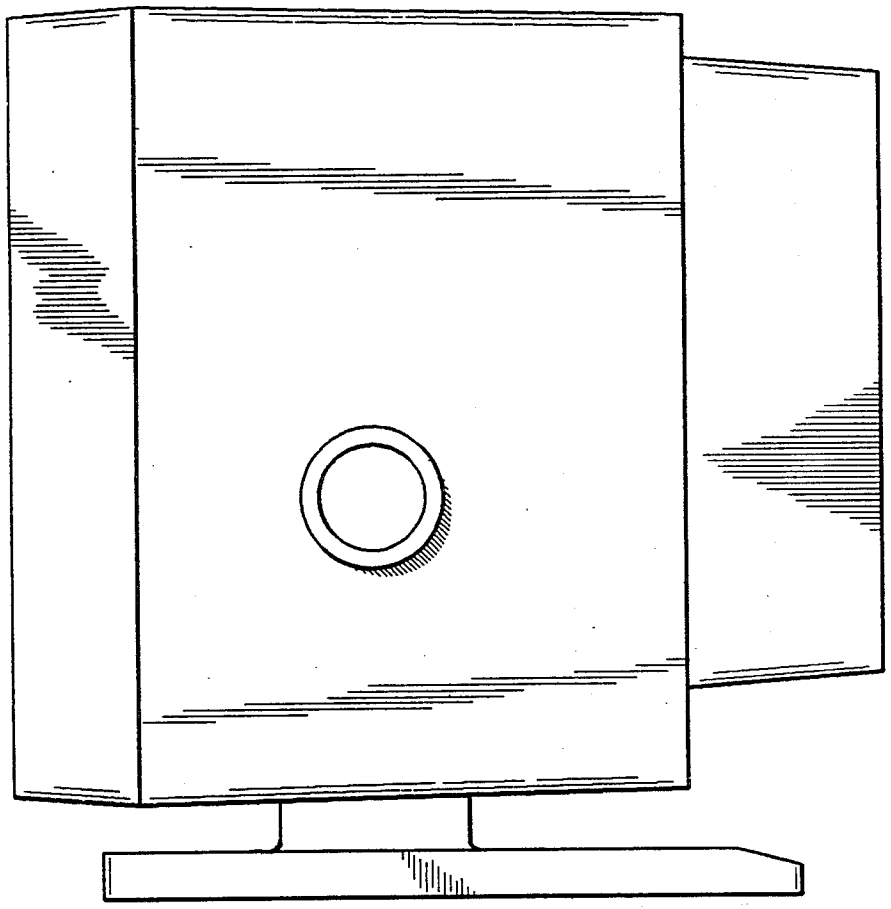

FIG. 3
