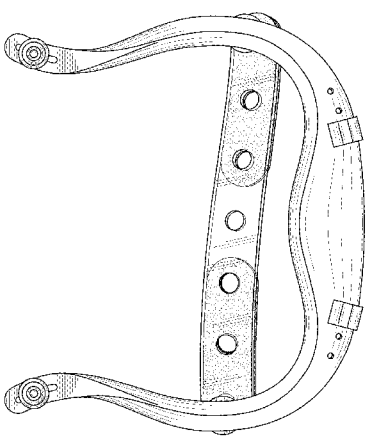
(57) **CLAIM**

The ornamental design for a shoulder rest for stringed instrument, as shown and described.

DESCRIPTION

FIG. **1** is a top view of an instrument support cradle of a shoulder rest for stringed instrument showing my new design.

FIG. **2** is a bottom view of the instrument support cradle of the shoulder rest for stringed instrument.



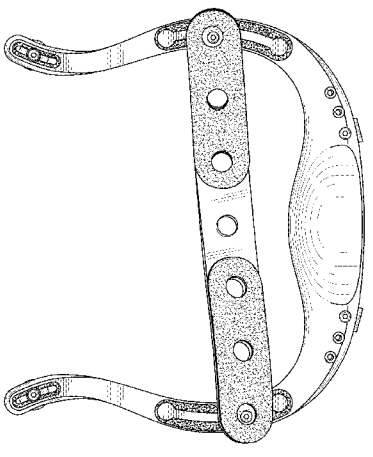


FIG. **3** is a bottom and right side perspective detail view, on an enlarged scale, of a right portion of the instrument support cradle of the shoulder rest for stringed instrument.

FIG. **4** is a top and right side perspective detail view, on a further enlarged scale, of a right portion of the instrument support cradle of the shoulder rest for stringed instrument.

FIG. **5** is a right side view of the right portion of the instrument support cradle of the shoulder rest for stringed instrument.

FIG. **6** is a top, front and right side perspective view of a shoulder rest component of the shoulder rest for stringed instrument.

FIG. **7** is a bottom and rear perspective view of the shoulder rest component of the shoulder rest for stringed instrument.

FIG. **8** is a bottom and rear perspective view, on an enlarged scale, of a left portion of the shoulder rest component of the shoulder rest for stringed instrument.

FIG. **9** is a top, front and right side perspective view, on an enlarged scale, of the left portion of the shoulder rest component of the shoulder rest for stringed instrument.

FIG. **10** is a top and front perspective view, on an enlarged scale, of a right portion of the shoulder rest component of the shoulder rest for stringed instrument.

FIG. **11** is a bottom and rear perspective view, on an enlarged scale, of the right portion of the shoulder rest component of the shoulder rest for stringed instrument.

FIG. **12** is a top view of the complete shoulder rest for stringed instrument, including the instrument support cradle and the shoulder rest component.

FIG. **13** is a bottom view of the complete shoulder rest for stringed instrument.

FIG. **14** is a top, front and right side perspective view of the complete shoulder rest for stringed instrument.

FIG. **15** is a front and right side perspective view of the complete shoulder rest for stringed instrument.

FIG. **16** is a bottom, front and right side perspective view of a right portion of the complete shoulder rest for stringed instrument.

FIG. **17** is a top and right side perspective view of a left portion of the complete shoulder rest for stringed instrument.

FIG. **18** is a top, front and right side perspective detail view, on an enlarged scale, of a right portion of the complete shoulder rest for stringed instrument.

FIG. **19** is a top, front and right side perspective view of a right portion of the complete shoulder rest for stringed instrument; and,

FIG. **20** is a top, front and right side perspective detail view, on an enlarged scale, of a portion of the instrument support cradle of the shoulder rest for stringed instrument.
