[57] **CLAIM**

The ornamental design for a telephone set, as shown and described.

DESCRIPTION

FIG. **1** is a top plan view of the stand of a telephone set showing my new design;

FIG. **2** is a top plan view of a telephone set with the handset cradled upon the stand;

FIGS. **3** and **4** are respectively left side elevational views of the stand and of the cradled set;

FIGS. **5** and **6** are respectively right side elevational views of the stand and of the cradled set;

FIGS. **7** and **8** are respectively rear elevational views of the cradled set and of the stand;

FIGS. **9** and **10** are respectively front elevational views of the cradled set and of the stand;

FIGS. **11** and **12** are respectively bottom plan and top plan views of the handset;

FIGS. **13** and **14** are respectively right and left side elevational views of the handset;

FIGS. **15** and **16** are respectively rear and front elevational views of the handset; and

FIG. **17** is a front, top, and right side isometric view of the cradled set.

For ease of illustration and clarity of representation, the handset and stand of the telephone set are shown separately in several views, and the cord is also shown in fragmentary form for similar reasons.
