SUPPLEMENTARY EUROPEAN SEARCH REPORT

Application number:
EP 19 75 52 06

LACK OF UNITY OF INVENTION

The Search Division considers that the present European patent application does not comply with the requirements of unity of invention and relates to several inventions or groups of inventions, namely:

1. claims: 1-6

An electronic device for surveillance and monitoring of an animal

2. claim: 7

An electronic device for surveillance and monitoring of an animal to predict onset of parturition

None of the further search fees have been paid within the fixed time limit. The present (supplementary) European search report has been drawn up for those parts of the European patent application which relate to the first mentioned in the claims, namely claims: 1-6

The supplementary search report has been based on the last set of claims valid and available at the start of the search.
