(54) Title: CELLULAR PHONE TRACKING SCOPE

(57) Abstract: A cellular phone tracking scope tracks (Figure # 1) and visually maps the location (Figure #2) and movement history of cellular phones in one or more cellular networks in a region of interest. The tracked cellular phones include detection and tracking of the location (latitude/longitude) of those that are not in use. With proper authorization, specific telephone numbers may be tapped, providing the ability to track an entire universe of cell phones by simultaneously displaying all phones within a specific boundary on a "tracking scope" similar to a radar scope. The tracked cellular phones that are displayed may be filtered, e.g., to show which cellular phones are those of a friend, which are those of a foe, and/or which are those of an unknown person or device. The location and phone number of desired phones can be displayed.

INTERNATIONAL SEARCH REPORT

International application No.

PCT/US06/33352

A. CLASSIFICATION OF SUBJECT MATTER IPC: H04Q 7/20(2006.01) USPC: 455/456,440,437 According to International Patent Classification (IPC) or to both national classification and IPC		
B. FIELDS SEARCHED Minimum documentation searched (classification system followed by classification symbols) U.S. : 455/456,440,437 Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)		
C. DOCUMENTS CONSIDERED TO BE RELEVANT		
Category *	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X	US 6,047,182 (Zadch et al) 04 April 2000 (04.04.2000) see entire reference	1, 5, 9
☐ Further documents are listed in the continuation of Box C. ☐ See patent family annex.		
* Special categories of cited documents:		
"A" document defining the general state of the art which is not considered to be of particular relevance "E" earlier application or patent published on or after the international filing date "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified) "O" document referring to an oral disclosure, use, exhibition or other means "P" document published prior to the international filing date but later than the priority date claimed	"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art "&" document member of the same patent family
