The ornamental design for an advertising display unit for merchandising cooler, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of an advertising display unit for merchandising cooler, showing our new design, it being understood that the broken lines are for illustrative purposes only, and form no part of the claimed design;

FIG. 2 is an enlarged front elevation view thereof, it being understood that the broken lines and dotted line illustrations of indicia are for illustrative purposes only, and form no part of the claimed design;

FIG. 3 is an enlarged end elevation view thereof, the opposite end being a mirror image of that shown; and

FIG. 4 is a greatly enlarged bottom rear perspective view thereof.

The top of the advertising display unit is understood to be flat and unornamented.
