DESIGN.
J. AND T. YAPPPELLI.
FINGER RING, FOB, SCARF PIN, OR SIMILAR ARTICLE OF MANUFACTURE.
APPLICATION FILED MAR. 31, 1921.

61,129. Patented June 20, 1922.
To all whom it may concern:

Be it known that we, JOHN YAPPELLI and THOMAS YAPPELLI, citizens of the United States, and residents of the city of New York, borough of Brooklyn, in the county of Kings and State of New York, United States of America, have invented a new, original, and ornamental Design for Finger Rings, Fobs, Scarf Pins, or Similar Articles of Manufacture, of which the following is a specification, reference being had to the accompanying drawing, wherein—

Figure 1 shows a side view of an article of manufacture embodying our invention, and

Figure 2 a face view of the same showing the shape of the collet and shank.

The essential features of our design are the representation of two flying cupids bearing a bow facing each other and arranged in panels in the crown of the ring, and the representation of hearts arranged in the base of the shank of the ring, the body of the shank being arranged with two bordering ribs and an intermediate rib apparently emanating from the apex of the hearts.

The design is usually cast, carved, engraved or stamped upon the metal blank before the ring is assembled.

The design may be adapted to other articles of jewelry, such as, fobs, scarf pins, and the like.

What we claim and desire to secure by Letters Patent is:

The ornamental design for a finger ring, fob, scarf pin, or similar article of manufacture consisting of the design substantially as shown and described.

JOHN YAPPELLI
THOMAS YAPPELLI.
