[57] **CLAIM**

The ornamental design for a handset and stand telephone unit, as shown and described.

DESCRIPTION

FIG. **1** is a top plan view of the stand of a handset and stand telephone unit showing my new design, with the stand and handset of the unit being shown sometimes detached from one another in ensuing sundry views for facility of illustration and clarity of presentation;

FIG. **2** is a top plan view of the telephone unit with the handset cradled in the stand;

FIG. **3** is a left side elevational view of the stand;

FIG. **4** is a left side elevational view of the cradled telephone unit;

FIG. **5** is a right side elevational view of the stand;

FIG. **6** is a right side elevational view of the cradled telephone unit;

FIG. **7** is a rear elevational view of the cradled unit;

FIG. **8** is a rear elevational view of the stand;

FIG. **9** is a front elevational view of the cradled unit;

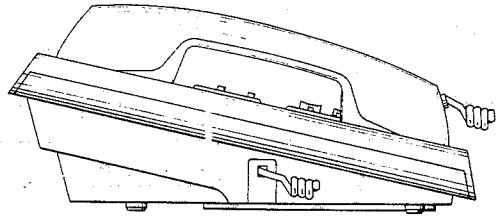

FIG. **10** is a front elevational view of the stand;

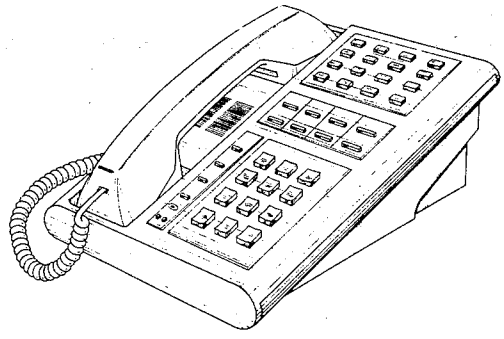

FIGS. **11** and **12** are respectively bottom and top plan views of the handset;

FIGS. **13** and **14** are respectively right and left side elevational views of the handset;

FIGS. **15** and **16** are respectively rear and front elevational views of the handset; and

FIG. **17** is a front, top and right side isometric view of the cradled telephone unit.
