The ornamental design for the enteral feeding connector with tethered closure, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of an enteral feeding connector with a tethered closure showing my new design;
FIG. 2 is a front view of the enteral feeding connector with a tethered closure of FIG. 1;
FIG. 3 is a back view of the enteral feeding connector with a tethered closure of FIG. 1.
FIG. 4 is an elevational end view of the enteral feeding connector with a tethered closure taken from the right-hand side of FIG. 2;
FIG. 5 is an elevational end view of the enteral feeding connector with a tethered closure taken from the left-hand side of FIG. 2;
FIG. 6 is a top view of the enteral feeding connector with a tethered closure of FIG. 2; and,
FIG. 7 is a bottom view of the enteral feeding connector with a tethered closure of FIG. 2.

The broken lines immediately adjacent the shaded areas represent the bounds of the claimed design, while all other broken lines are directed to portions of the article excluded from the claim. The broken line disclosure forms no part of the claimed design.
