**CLAIM**

The ornamental design for a air tool holder, as shown and described.

**DESCRIPTION**

FIG. 1 is a front perspective view of an air tool holder of the present invention in an environment;

FIG. 2 is enlarged front perspective view of the air tool holder of the present invention;

FIG. 3 is a top plan view thereof;

FIG. 4 is a right side elevation view thereof with a left side elevation view being a mirror image;

FIG. 5 is a front elevation view thereof; and,

FIG. 6 is bottom plan view thereof.

A rear elevation view has been omitted as it does not form a portion of the claimed design.

The evenly spaced broken lines shown in the drawings are directed to environment, are for informational purposes only, and form no part of the claimed design.

The long and short broken lines are boundary lines which define the bounds of the claimed design. These boundaries do not exist in reality in the article embodying the design. It is understood that the claimed design extends to these boundaries but do not include the boundaries.
