The ornamental design for a device for measuring heart rate, as shown and described.

DESCRIPTION

FIG. 1 is a top plain view of a device for measuring heart rate of my new design;
FIG. 2 is a bottom view of the device for measuring heart rate;
FIG. 3 is a side elevational view of the device for measuring heart rate, the other side being a mirror image thereof; and,
FIG. 4 is an end view of the device for measuring heart rate.
The broken lines in FIG. 2 illustrate unclaimed portions of the device for measuring heart rate and form no part of the claimed design.
