(54) Title: PROCESS FOR THE PREPARATION OF SILODOSIN AND ITS GAMMA FORM

(57) Abstract: The present invention provides an improved and efficient process for the preparation silodosin of formula I and pharmaceutically acceptable salts thereof Formula I through novel tartrate salt of cyano hydroxy intermediate of formula II. Formula II The present invention also provides an improved, industrially advantageous and novel process for preparation of pure polymorphic form gamma (γ) of silodosin, wherein residual solvents are present in specified limits as per ICH guidelines.

(84) Declarations under Rule 4.17:

Published:

— of inventorship (Rule 4.17(iv))

— with international search report (Art. 21(3))

(88) Date of publication of the international search report:

30 April 2015
**INTERNATIONAL SEARCH REPORT**

**A. CLASSIFICATION OF SUBJECT MATTER**

A61K31/4045, C07D209/42, C07D209/08

According to International Patent Classification (IPC) or to both national classification and IPC

**B. FIELDS SEARCHED**

Minimum documentation searched (classification system followed by classification symbols)

A 61 K, C07 D

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic database consulted during the international search (name of data base and, where practicable, search terms used)

1 PO-Dat abas e, St n

**C. DOCUMENTS CONSIDERED TO BE RELEVANT**

☐ Further documents are listed in the continuation of Box C. ☒ See patent family annex.

* Special categories of cited documents:
  "A" document defining the general state of the art which is not considered to be of particular relevance
  "E" earlier application or patent but published on or after the international filing date
  "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
  "O" document referring to an oral disclosure, use, exhibition or other means
  "P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&" document member of the same patent family

Date of the actual completion of the international search

30-01-2015

Date of mailing of the international search report

30-01-2015
