[57] CLAIM

The ornamental design for a combined ergonomic split keyboard and mouse set, as shown and described.

DESCRIPTION

FIG. 1 is a front, top, side perspective view of the combined ergonomic split keyboard and mouse set, the set being composed of right-hand and left-hand units;

FIG. 2 is a front, top, side perspective view thereof, the right-hand unit shown separately for clarity of illustration, on an enlarged scale, the front, top, side perspective view of the left-hand unit is a mirror image;

FIG. 3 is a top view thereof, the right-hand unit shown separately for clarity of illustration, on an enlarged scale, the top view of the left-hand unit is a mirror image;

FIG. 4 is a side elevational view thereof, the right-hand unit shown separately for clarity of illustration, on an enlarged scale, the side view of the left-hand unit is a mirror image;

FIG. 5 is a front view thereof, the right-hand unit shown separately for clarity of illustration, on an enlarged scale, the front of the left-hand unit is a mirror image;

FIG. 6 is a bottom plan view thereof, the right-hand unit shown separately for clarity of illustration, on an enlarged scale, the bottom of the left-hand unit is a mirror image;

FIG. 7 is a rear elevational view thereof, the right-hand unit shown separately for clarity of illustration, on an enlarged scale, the rear of the left-hand unit is a mirror image; and,

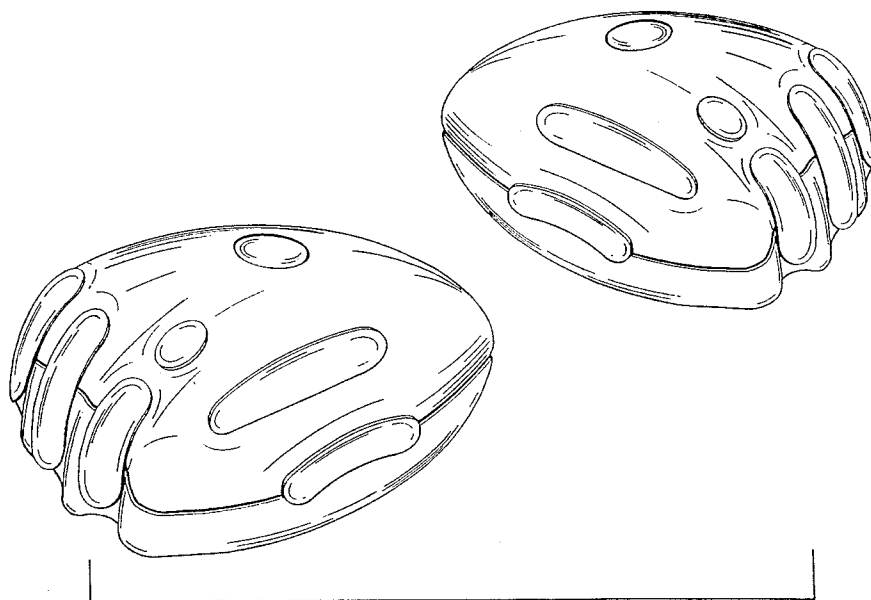

FIG. 8 is an opposite side elevational view thereof, the right hand unit being shown separately for clarity of illustration, on an enlarged scale, the opposite side view of the left hand unit is a mirror image.
