UNITED STATES PATENT OFFICE.

BERNARD RICE, OF NEW YORK, N. Y.

DESIGN FOR A SACHEL-FRAME.

SPECIFICATION forming part of Design No. 15,744, dated January 20, 1885.

Application filed October 20, 1884. Term of patent 7 years.

To all whom it may concern:

Be it known that I, BERNARD RICE, of the city, county, and State of New York, have invented a new and original Design for Bag and Satchel Frames, of which the following is a full, clear, and exact description, reference being had to the accompanying drawings, making part of this specification, and in which—

Figure 1 represents a side elevation, and Fig. 2 an end elevation, of a bag or satchel frame.

Similar letters of reference indicate corresponding parts.

The design relates to a bag and satchel frame; and it consists of a bag and satchel frame the jaws of which are provided at the sides and ends with raised ornamental figures, shown symmetrically arranged with reference to the center of the frame.

A A in the drawings represent the jaws of my bag and satchel frame. The sides and tops

of the jaws A A are provided with raised ornamental figures B B, that are arranged symmetrically to the center of the frame. The ends of the outer jaw A are also ornamented with raised figures, as shown in Fig. 2.

Having thus described my design, I claim as new and desire to secure by Letters Patent—

The design for a bag or satchel frame, the same consisting of the jaws, which are provided upon both the sides and ends with raised ornamental figures, shown symmetrically arranged with reference to the center of the frame, as shown and described.

In testimony that I claim the foregoing as my invention I have signed it this 16th day of October, 1884.

BERNARD RICE.
