UNITED STATES PATENT OFFICE

166,756

CLOCKCASE

John A. C. Keane, St. Albans, N. Y.

Application August 27, 1951, Serial No. 16,449

Term of patent 14 years

(Cl. D42—7)

To all whom it may concern:

Be it known that I, John A. C. Keane, a citizen of the United States of America, residing at St. Albans, in the county of Queens and State of New York, have invented a new, original, and ornamental design for a Clockcase, of which the following is a specification, reference being had to the accompanying drawing, forming a part thereof.

Fig. 1 is a front elevational view of a clockcase, showing the essential features of my new design in full lines.

Fig. 2 is a rear view thereof.

Fig. 3 is a lefthand side view of Fig. 1.

My design for a clockcase is characterized by the suggestion of a swan when viewed as in Fig. 1 but with a flat rear view and bottom view, in combination with the ruffled appearance of the wings as seen in Figs. 1 and 3.

I claim:

The ornamental design for a clockcase, substantially as shown and described.

JOHN A. C. KEANE.
