Title: PERSONAL INVENTORY MANAGEMENT AND ITEM EXCHANGE NETWORK

Abstract: Techniques for personal inventory management and item exchange network are described, including generating an interface using data associated with a personal inventory comprising an item listing, the interface being used to manage the personal inventory, the interface being generated by a system configured to provide one or more options to manage the personal inventory and to prevent access to the personal inventory, presenting the item listing in the interface, the interface being accessible by one or more endpoints and including a marketplace configured to perform an activity associated with the item listing, the data being used to present the item listing on a network, the item listing describing an item, and receiving an input associated with the item listing, the input indicating initiation of an activity associated with an item described by the item listing.
INTERNATIONAL SEARCH REPORT

International application No.
PCT/US 07/19624

A. CLASSIFICATION OF SUBJECT MATTER

IPC(8) - G06Q 10/00 (2007.10)
USPC - 705/28

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)
USPC- 705/28

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched
USPC: 705/22, 28; 700/236, 1, 190; search terms below

Electronic database consulted during the international search (name of database and, where practicable, search terms used)

D Further documents are listed in the continuation of Box C.

* Special categories of cited documents
"A" document defining the general state of the art which is not considered to be of particular relevance
"E" earlier application or patent but published on or after the international filing date
"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
"O" document referring to an oral disclosure, use, exhibition or other means
"P" document published pior to the international filing date but later than the priority date claimed
"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
"X" document of particular relevance, the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
"Y" document of particular relevance, the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
"&" document member of the same patent family
