CLAIM

The ornamental design for a construction toy table, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the present invention, a construction toy table for use by a child showing a flat upper surface;

FIG. 2 is a right side view of the present invention shown with the top of the construction toy table being flipped over and showing slight upwardly extending nubs for use in securing the construction pieces, the left side being a mirror image thereof;

FIG. 3 is a rear view of the present invention as shown in FIG. 1;

FIG. 4 is a front view the present invention as shown in FIG. 1;

FIG. 5 is a rear view of the present invention shown with the top of the construction toy table being flipped over as in FIG. 2;

FIG. 6 is a perspective view of the invention shown with the top of the construction toy table being flipped over as in FIG. 2;

FIG. 7 is a top plan view of the present invention shown with the top of the construction toy table being flipped over as in FIG. 2;

FIG. 8 is a top plan view of the present invention as shown in FIG. 1; and,

FIG. 9 is a side view of the present invention as shown in FIG. 1, the other side view being a mirror image thereof.
