ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.(54) Title: A SYSTEM AND METHOD FOR FILTERING ELECTROMAGNETIC AND VISUAL TRANSMISSIONS AND
FOR MINIMIZING ACOUSTIC TRANSMISSIONS(57) Abstract: The invention describes a system and methods for filtering electromagnetic and visual transmissions and for mini-
mizing acoustic transmissions. Various combinations of UV, IR, and yellow-tinted filters are applied in various physical configura-
tions to a transparent substrate such as a plastic film or glazing of a window for modifying selected wavelengths of electromagnetic
radiation. For instance a light filter may have a multi-layered metallic sputtered stack having a relatively low sheet resistance. The
combination of filters prevents or attenuates the passage of selected wavelengths through the substrate as needed to address security
risks. The combination of filters is useful to prevent unauthorized data collection and information exchange from or within buildings
or otherwise prevent such unauthorized data collection and information exchange from, for example, computer monitors or screens,
personal digital assistants, and local area networks.

* Special categories of cited documents:	"T"
"A" document defining the general state of the art which is not considered to be of particular relevance	later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
"E" earlier application or patent published on or after the international filing date	"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)	"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
"O" document referring to an oral disclosure, use, exhibition or other means	"&" document member of the same patent family
"P" document published prior to the international filing date but later than the priority date claimed
