(54) Title: SYSTEMS, METHODS, AND MEDIA FOR MANAGING EDITABLE PREVIEWS OF WEBPAGES

(57) Abstract: Systems and methods for managing an editable preview of a webpage are provided herein. Exemplary methods may include receiving a request to generate an editable preview of a webpage, via a preview server (120), the webpage comprising assets arranged according to a layout, responsive to the request, obtaining, via the preview server (120), assets from a content repository (140), generating, via the preview server (120), an editable preview of the webpage using the obtained assets and the layout, and providing, via the preview server (120), the preview of the webpage to an authoring environment (155) for editing by a content editor in such a way that when the content editor edits at least one of the obtained assets, the at least one obtained asset is placed in a locked format to prevent editing by additional content editors.

INTERNATIONAL SEARCH REPORT

A. CLASSIFICATION OF SUBJECT MATTER
INV. G06F17/30 G06F17/24
ADD.

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)
G06F

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

EPO-Internal, WPI Data

C. DOCUMENTS CONSIDERED TO BE RELEVANT

* Special categories of cited documents:
- "A" document defining the general state of the art which is not considered to be of particular relevance
- "E" earlier application or patent but published on or after the international filing date
- "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- "O" document referring to an oral disclosure, use, exhibition or other means
- "P" document published prior to the international filing date but later than the priority date claimed
- "T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- "Y" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
- "A" document member of the same patent family

Date of the actual completion of the international search: 17 October 2013

Date of mailing of the international search report: 23/10/2013

Name and mailing address of the ISA:
