(54) Title: SYSTEM AND MECHANISMS PROVIDING AN ADJUSTABLE PERCH FOR A WEARER OF A HOLDER BASE WITH DEVICE

FIG. 1B

(57) Abstract: A system is described that includes a base adapted to hold a device which is removable therefrom, the system including a retractor mechanism coupled to the base and having a retractable cord wound thereon with both ends extending therefrom through at least one opening as a line part of the retractable cord for access by a wearer of the base, and setting means providing adjustability of a perch position on the wearer for the base.

**A. CLASSIFICATION OF SUBJECT MATTER***A45C 11/00(2006.01)i, A45C 13/00(2006.01)i*

According to International Patent Classification (IPC) or to both national classification and IPC

**B. FIELDS SEARCHED**

Minimum documentation searched (classification system followed by classification symbols)

\* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
