(54) Title: SKIN EXFOLIATION DEVICES AND KITS

Fig. 11

(57) Abstract: A hand held exfoliation device suitable for repeated use on a facial skin surface is provided. The exfoliation device includes a body and an exfoliating material attached thereto that is sized for application to a facial skin surface. The exfoliating material includes a substrate and an exfoliating surface. The exfoliating surface is formed from a plurality of particles, wherein the plurality of particles are attached to the substrate to form peaks and valleys thereon. The exfoliating material has a surface roughness S_a from about 2 μm to about 16 μm and the particles have an average Mohs hardness from about 4 to about 8.

INTERNATIONAL SEARCH REPORT

International application No

PCT/US2013/035913

A. CLASSIFICATION OF SUBJECT MATTER INV. A45D34/04 ADD.				
According to International Patent Classification (IPC) or to both national classification and IPC				
B. FIELDS SEARCHED Minimum documentation searched (classification system followed by classification symbols) A45D A61B				
Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched				
Electronic data base consulted during the international search (name of data base and, where practicable, search terms used) EPO-Internal, WPI Data				
C. DOCUMENTS CONSIDERED TO BE RELEVANT				
Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.		
X	WO 2009/156668 A2 (OREAL [FR]; ROLLAT-CORVOL ISABELLE [FR]; KHENNICHE SAMIRA [FR]; SAMAIN) 30 December 2009 (2009-12-30) pages 4-10,12 pages 29-40 figures 1-24 -----	1-15		
☐ Further documents are listed in the continuation of Box C. ☒ See patent family annex.				
* Special categories of cited documents : <table border="0"> <tr> <td> "A" document defining the general state of the art which is not considered to be of particular relevance "E" earlier application or patent but published on or after the international filing date "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified) "O" document referring to an oral disclosure, use, exhibition or other means "P" document published prior to the international filing date but later than the priority date claimed </td> <td> "T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art "&" document member of the same patent family </td> </tr> </table>			"A" document defining the general state of the art which is not considered to be of particular relevance "E" earlier application or patent but published on or after the international filing date "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified) "O" document referring to an oral disclosure, use, exhibition or other means "P" document published prior to the international filing date but later than the priority date claimed	"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art "&" document member of the same patent family
