(54) **Title**: SAMPLING PATIENT DATA

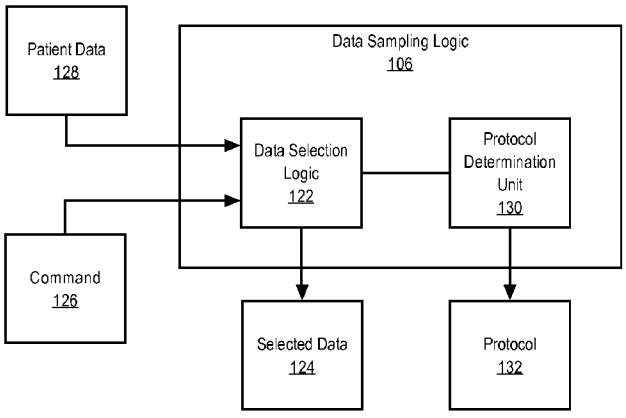

FIG. 1B

(57) **Abstract**: In an embodiment, a computer includes one or more processors; a computer readable storage medium comprising a sequence of instructions, which when executed by the one or more processors, cause: transmitting, to a second computer over a network, a first subset of patient data; receiving, from the second computer, a command for additional data, wherein the command is based on the first subset of the patient data; identifying a second subset of the patient data based on the command; transmitting, to the second computer, the second subset of the patient data; wherein the first subset of the patient data and the second subset of the patient data were collected by one or more biometric sensors within a same medical examination session.

A. CLASSIFICATION OF SUBJECT MATTER

G06F 19/00(2011.01)i, G06F 15/16(2006.01)i

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

G06F 19/00; A61B 5/04; G06Q 50/00; A61B 5/00

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Korean utility models and applications for utility models

Japanese utility models and applications for utility models

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

eKOMPASS(KIPO internal) & Keywords: patient, data, sampling, network, transmit, receive, ultra, sonic, sensor

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.

* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents,such combination being obvious to a person skilled in the art

"&" document member of the same patent family
