DESIGN.

W. R. ELIOT.
GLASS RECEPTACLE.
(Application filed Jan. 10, 1900.)

Patented Feb. 13, 1900.
UNITED STATES PATENT OFFICE.

WILLIAM R. ELIOT, OF MERIDEN, CONNECTICUT, ASSIGNOR TO THE INTERNATIONAL SILVER COMPANY, OF SAME PLACE.

DESIGN FOR A GLASS RECEPTACLE.

SPECIFICATION forming part of Design No. 32,210, dated February 13, 1900.
Application filed January 15, 1900. Serial No. 1,559. Term of patent 7 years.

To all whom it may concern:

Be it known that I, WILLIAM R. ELIOT, of Meriden, in the county of New Haven and State of Connecticut, have invented and produced a new Design for a Glass Receptacle, (Case A;) and I do hereby declare the following, when taken in connection with the accompanying drawings and the letters of reference marked thereon, to be a full, clear, and exact description of the same, and which said drawings constitute part of this specification, and represent, in—

Figure 1, a plan view of a receptacle embodying my design; Fig. 2, a sectional view.

This invention relates to a design for a glass receptacle; and the design consists in the configuration and ornamentation, as herein described, and shown in the accompanying illustrations.

As herein shown, the design comprises four bands A, festooned, the surfaces of which are checkered, and on each band is a series of punties B, differentiating in size. Alternately arranged with respect to the bands A are bands C, festooned to points over the centers of the bands A, and these bands are surfaced with fine cuttings. The bottom of the receptacle has a star center D, surrounded by a number of smaller stars E, and between the points of the festoons are stars F.

I claim—

The design for a glass receptacle substantially as shown and described.

In testimony whereof I have signed this specification in the presence of two subscribing witnesses.

WILLIAM R. ELIOT.

Witnesses:

HENRY J. MARTIN,
JAMES E. PRATT.
