CLAIM
The ornamental design for a housing for combined handset and stand telephone unit, as shown and described.

DESCRIPTION
FIG. 1 is a top plan view of a housing for combined handset and stand telephone unit showing my new design with the handset cradled upon the stand;
FIG. 2 is a front elevational view thereof;
FIG. 3 is a rear elevational view thereof;
FIG. 4 is a right side elevational view thereof, and the view of the left side is substantially a mirror image;
FIG. 5 is an elevational view of one side of the handset when removed from the stand and the view of the side opposite is a mirror image thereof;
FIG. 6 is a plan view of the underneath side of the handset removed from the stand;
FIG. 7 is an elevational view of one end of the handset;
FIG. 8 is an elevational view of the other end of the handset;
FIG. 9 is a perspective view of the underneath side of the handset; and
FIG. 10 is a perspective view from above of the cradle/stand with the handset removed therefrom.

The handset and stand components of the combined telephone unit are shown independently in FIGS. 5-10 for clarity and ease of illustration.
