(54) Title: GRAPHICAL USER INTERFACE FOR TRAVEL PLANNING SYSTEM

(57) Abstract: A user interface for presenting travel itineraries to a user includes an itinerary region for displaying travel itineraries and a filter region. Each travel itinerary has a corresponding value for a first travel criterion and the travel itineraries are grouped into categories based on the values of the first travel criterion. The filter region includes a plurality of cells, each of which is associated with one of the categories of travel itineraries. When a user selects a cell, the itinerary region displays only travel itineraries in the category associated with the selected cell.

* Special categories of cited documents :

- *A* document defining the general state of the art which is not considered to be of particular relevance
- *E* earlier document but published on or after the international filing date
- *L* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- *O* document referring to an oral disclosure, use, exhibition or other means
- *P* document published prior to the international filing date but later than the priority date claimed

- *T* later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- *X* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- *Y* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.
- *&* document member of the same patent family
