(54) Title: A CONTAINER ENABLING MIXING AT LEAST TWO SUBSTANCES THEREIN

FIG. 3

(57) Abstract: A plural chambered container for storing separately a plurality of substances for mixing prior to opening the container. The container comprises a closed outer container having a side wall, bottom and top. It further comprises an inner chamber with a designated opening area, wherein the inner chamber is operatively attached to the bottom of the outer container. In addition the outer container is filled with a first substance and the inner chamber is filled with a second substance. The outer container is filled with a one substance and the inner chamber is filled with another substance. Upon pressing the side walls of said outer container, the designated opening area is opened thereby causing the substance in the inner chamber to mix with the substance in the outer container.
