(54) Title: METHOD AND SYSTEM FOR PROVIDING INFORMATION FROM THIRD PARTY APPLICATIONS TO DEVICES

(57) Abstract: A method and system of making information from an application accessible to an electronic device, comprising: checking, via a log monitor, a third party log file for a new log entry; sending any new log entries in the third party log file to a rules engine, the rules engine comprising at least one rule; determining if any of the new log entries violate any rules in the rules engine; making accessible any new log entries that violate any rules to the electronic device; creating an alert based on the new log entry that violates at least one rule; and notifying users of the alert using alert criteria to determine who should receive the alerts and when, wherein different users receive different alerts based on the alert criteria.

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

G06F 17/00; G06F 15/173; H04L 29/06; G06F 1/00; G06F 11/00; G09G 5/00

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Korean utility models and applications for utility models

Japanese utility models and applications for utility models

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)
event detection, alarm generation, log monitoring**C. DOCUMENTS CONSIDERED TO BE RELEVANT**

* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&" document member of the same patent family
