Title: A METHOD AND A COMPUTER SYSTEM FOR DATA ASSIGNMENT

Abstract: A method and computer system for data assignment comprising a computer unit (12); and a data object component (20) for managing a set of data objects; wherein data objects of the set of data objects can be divided into segments (52) according to selectable criteria, further comprising an interface unit (22) interconnecting the computing unit (12) and the data object component (20), the interface unit (22) being arranged and constructed to include an inventory assignment of segments (52) created in the data object component (20) such that, in case of an assignment inquiry by the computing unit (12), an assignment of one or more segments (52) being inquired for is carried out in the interface unit (22).

INTERNATIONAL SEARCH REPORT

A. CLASSIFICATION OF SUBJECT MATTER
IPC 7 G06F 17/30

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)
IPC 7 G06F

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)
EPO-Internal, PAJ, WPI Data, COMPENDEX, INSPEC

C. DOCUMENTS CONSIDERED TO BE RELEVANT

<table>
<thead>
<tr>
<th>Category</th>
<th>Citation of document, with indication, where appropriate, of the relevant passages</th>
<th>Relevant to claim No.</th>
</tr>
</thead>
</table>

Further documents are listed in the continuation of box C. Patent family members are listed in annex.

* Special categories of cited documents:
  *A* document defining the general state of the art which is not considered to be of particular relevance
  *E* earlier document not published on or after the international filing date
  *L* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
  *O* document referred to in an oral disclosure, use, exhibition or other means
  *S* document published prior to the international filing date but later than the priority date claimed

*”* Inter document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

*"* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

*"* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

*"* document member of the same patent family

Date of the actual completion of the international search: 24 January 2005
Date of mailing of the international search report: 18/02/2005
