CATEGORY OF CITED DOCUMENTS

X: particularly relevant if taken alone	P: intermediate document
Y: particularly relevant if combined with another document of the same category	T: theory or principle underlying the invention
A: technological background	E: earlier patent document, but published on, or after the filing date
O: non-written disclosure	D: document cited in the application
& : member of the same patent family, corresponding document	L: document cited for other reasons

Disclaimer: this document has been automatically generated using data structured in accordance with WIPO standard ST.36 from the database of search reports of the European Patent Office. For technical reasons, its content and layout may differ from that of the original publication. Only the original published information is legally binding.

SUPPLEMENTARY EUROPEAN SEARCH REPORT

Application number:
EP 14 90 34 67

LACK OF UNITY OF INVENTION

The Search Division considers that the present European patent application does not comply with the requirements of unity of invention and relates to several inventions or groups of inventions, namely:

1. claims: 2, 5-7, 9, 12-15

upon detecting that a vehicle is in a parking state, a risk level associated with the current parking position is determined and parking warnings are output corresponding to the risk level, wherein detecting comprises sensing, by a gear sensor, whether the vehicle is in a parking or null gear; sensing, by a speed sensor, speed of the vehicle; sensing, by a parking brake sensor, whether a parking brake of the vehicle is applied; and/or sensing, by a door sensor, whether a door of the vehicle is open.

2. claims: 3, 4, 10, 11

upon detecting that a vehicle is in a parking state, a risk level associated with the current parking position is determined and parking warnings are output corresponding to the risk level, wherein a false parking state indication is corrected.

All further search fees have been paid within the fixed time limit. The present (supplementary) European search report has been drawn up for all claims.

The supplementary search report has been based on the last set of claims valid and available at the start of the search.
