William Resor of Cincinnati, O.
Letters Patent, No. 673, Dated Oct. 17th 1854.

~~~~~  
The schedule referred to in these Letters Patent and making part of the same.  
~~~~~

To all whom it may concern:

Be it known that W^m. Resor of Cincinnati in the County of Hamilton, and State of Ohio, has invented or produced a new ornamental design for a "Franklin Stove", and I do hereby declare the following to be a full, clear and exact description thereof, reference being had to the annexed drawings making part of this specification, in which

Fig. 1. is a front elevation

Fig. 2. is a section at the line x x Fig. 1.

Fig. 5. is a top view of the stove.

Fig. 6. is a section thro' the mouldings thereof.

The opening for the fireplace has the form of a flattened arch and is bordered by a vandylke moulding (a). At the crown of the arch is the representation of a keystone (b). The triangular intervals between the arch and the upper plate are occupied by sunk panels (c) decorated with the fruit, foliage and tendrils of the grape vine.

The mouldings upon the top plate are formed and fluted or scalloped as particularly represented in the several figures (1, 5 & 6).

I claim as new and of my invention, the ornamental design and configuration of stove plates, substantially as herein described and illustrated.

In testimony whereof I hereunto set my hand before two subscribing witnesses.

Witnesses.
Geo. H. Knight
Jno. S. Davis
