Title: POLYNUCLEOTIDE-BINDING DOMAINS AS A MEANS OF CELL LABELING, CELL ORGANIZATION AND POLYMER SEQUENCING

Abstract: The present invention relates to a protein comprising a polynucleotide-binding domain and a transmembrane domain. These proteins can be used in methods of sequencing polynucleotides, methods of labeling polynucleotides, and methods of organizing cells (e.g., to construct tissues).

Further documents are listed in the continuation of Box C.

* Special categories of cited documents:
  "A" document defining the general state of the art which is not considered to be of particular relevance
  "E" earlier application or patent but published on or after the international filing date
  "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
  "O" document referring to an oral disclosure, use, exhibition or other means
  "P" document published prior to the international filing date but later than the priority date claimed

**"T"** later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

**"X"** document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

**"Y"** document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

**"&"** document member of the same patent family

2. [ ] As all searchable claims could be searched without effort justifying additional fees, this Authority did not invite payment of additional fees. |

3. [ ] As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.: |

4. [ ] No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.: |

Remark on Protest: [ ]  
The additional search fees were accompanied by the applicant's protest and, where applicable, the payment of a protest fee.  
[ ]  
The additional search fees were accompanied by the applicant's protest but the applicable protest fee was not paid within the time limit specified in the invitation.  
[ ]  
No protest accompanied the payment of additional search fees.
