The ornamental design for a holder for storage of flash media and smart chips.

DESCRIPTION
FIG. 1 is a perspective view of the holder for storage of flash media and smart chips in the open position showing our new design;
FIG. 2 is a front view of our design in the open position;
FIG. 3 is a top view of our design in the open position;
FIG. 4 is a bottom view of our design in the open position;
FIG. 5 is a back view of our design in the open position;
FIG. 6 is a left side view of our design in the open position of FIG. 1, the right side view being a mirror image thereof;
FIG. 7 is a front view of our design in the closed position;
FIG. 8 is a back view of our design in the closed position, and,
FIG. 9-11 show an ornamental design for a holder for storage of flash media and smart chips.
