Title: MULTI-SENSORY TEACHING KIT AND METHOD OF PRODUCTION

Abstract: A multi-sensory teaching kit includes one or more edible items in symbolic shapes, a handbook including a glossary of meanings for the shapes, and a spiritual lesson. In some embodiments, a souvenir such as a jewelry bead is provided, with an optional text explaining the significance of the souvenir. A method of production of a multi-sensory teaching kit is provided, comprising, forming a cookie into a symbolic shape, writing a handbook including a glossary of meanings of the symbolic shapes, printing a lesson on a spiritual principle, optionally providing a souvenir, and optionally enclosing the cookie, handbook, lesson, and optional souvenir in a container.
INTERNATIONAL SEARCH REPORT

International application No

D Further documents are listed in the continuation of Box C □

* Special categories of cited documents
  'A' Document defining the general state of the art which is not considered to be of particular relevance
  'E' Earlier application or patent but published on or after the international filing date
  'L' Document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
  'O' Document referring to an oral disclosure, use, exhibition or other means
  'P' Document published prior to the international filing date but later than the priority date claimed

'T' Later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

'X' Document of particular relevance, the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

'Y' Document of particular relevance, the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

Document member of the same patent family
