(57) **CLAIM**

The ornamental design for a vehicle fuel tank cover, as shown and described.

DESCRIPTION

A portion of the disclosure of this patent document contains material to which a claim of copyright is made. The copyright owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the Patent and Trademark Office patent file or records, but reserves all other copyrights whatsoever.

FIG. 1 is a top side view of the vehicle fuel tank cover, in accordance with a preferred embodiment of the present invention;

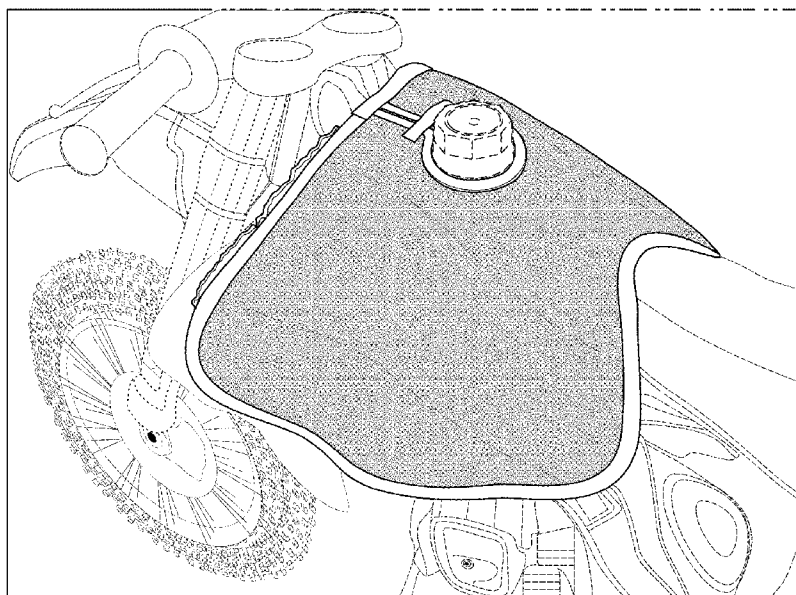

FIG. 2 is a bottom side view of the vehicle fuel tank cover, as shown in FIG. 1;

FIG. 3 is a top side view of the vehicle fuel tank cover showing the insertable cooling packs and pockets for same, as shown in FIG. 1;

FIG. 4 is a top side view of the vehicle fuel tank cover, as shown in FIG. 1, in use on a vehicle; and,

FIG. 5 is a detail view of the vehicle fuel tank cover taken from encircled area 5 in FIG. 1, showing a portion of cooling packet pockets in an open position. The features shown in broken lines illustrate unclaimed structure.
