(57) **CLAIM**

The ornamental design for the protective object display case, as shown and described.

DESCRIPTION

FIG. 1 is a left back side top down perspective view of the first protective object display case enclosing a ball shown separate for ease of illustration.

FIG. 2 is a right back side top down perspective view of the first protective object display case enclosing a ball shown separate for ease of illustration.

FIG. 3 is a front side view of the first protective object display case enclosing a ball shown separate for ease of illustration.

FIG. 4 is a back side view of the first protective object display case enclosing a ball shown separate for ease of illustration.

FIG. 5 is a left side view of the first protective object display case enclosing a ball. The right side view of the first protective object display case enclosing the ball is a mirror image of the left side view shown separate for ease of illustration.

FIG. 6 is a top down view of the first protective object display case enclosing a ball shown separate for ease of illustration.

FIG. 7 is a bottom up view of the first protective object display case enclosing a ball shown separate for ease of illustration.

FIG. 8 is a left back side top down perspective view of the second protective object display case enclosing a ball shown separate for ease of illustration.

FIG. 9 is a right back side top down perspective view of the second protective object display case enclosing a ball shown separate for ease of illustration.

FIG. 10 is a front side view of the second protective object display case enclosing a ball shown separate for ease of illustration.

FIG. 11 is a back side view of the second protective object display case enclosing a ball shown separate for ease of illustration.

FIG. 12 is a left side view of the second protective object display case enclosing a ball. The right side view of the second protective object display case enclosing the ball is a mirror image of the left side view shown separate for ease of illustration.

FIG. 13 is a top down view of the second protective object display case enclosing a ball shown separate for ease of illustration.

FIG. 14 is a bottom up view of the second protective object display case enclosing a ball shown separate for ease of illustration.

FIG. 15 is a left back side top down perspective view of the third protective object display case enclosing a ball shown separate for ease of illustration.

FIG. 16 is a right back side top down perspective view of the third protective object display case enclosing a ball shown separate for ease of illustration.

FIG. 17 is a front side view of the third protective object display case enclosing a ball shown separate for ease of illustration.

FIG. 18 is a back side view of the third protective object display case enclosing a ball shown separate for ease of illustration.

FIG. 19 is a left side view of the third protective object display case enclosing a ball. The right side view of the third protective object display case enclosing the ball is a mirror image of the left side view shown separate for ease of illustration.

FIG. 20 is a top down view of the third protective object display case enclosing a ball shown separate for ease of illustration.

FIG. 21 is a bottom up view of the third protective object display case enclosing a ball shown separate for ease of illustration.

FIG. 22 is a left back side top down perspective view of the fourth protective object display case for a card shown separate for ease of illustration.

FIG. 23 is a right back side top down perspective view of the fourth protective object display case for a card shown separate for ease of illustration.

FIG. 24 is a front side view of the fourth protective object display case for a card shown separate for ease of illustration.

FIG. 25 is a back side view of the fourth protective object display case for a card shown separate for ease of illustration.

FIG. 26 is a left side view of the fourth protective object display case for a card. The right side view of the fourth protective object display case for a card is a mirror image of the left side view shown separate for ease of illustration.

FIG. 27 is a top down view of the fourth protective object display case for a card shown separate for ease of illustration.

FIG. 28 is a bottom up view of the fourth protective object display case for a card shown separate for ease of illustration.

FIG. 29 is a front view of the protective object display cases enclosing a card and balls magnetically attached to a board of magnetically receptive material as shown assembled; and, FIG. 30 is a left back side top down perspective view of the protective object display cases enclosing a card and balls magnetically attached to a board of magnetically receptive material as shown assembled.

Broken lines are used to illustrate portions of the protective object display case that form no part of the claimed design. The other broken lines illustrate environmental subject matter that form no part of the claimed design. The dot dashed lines illustrate environmental subject matter that form no part of the claimed design. With the exception of the

magnets, the protective object display cases, including edges thereof, are made of transparent material.
