#### Reason for the limitation of the search:

**[0001]** The wording of independent claim 1 is vague and unclear and leaves the reader in doubt as to the meaning of the technical feature to which it refers, thereby rendering the definition of the subject-matter of said claim unclear (Article 84 EPC).

**[0002]** In particular, the interrelation between the respective elements, such as track structure, anchor supports, intermediate supports, prestressed load-bearing members, bodies, two-level trussed track structure or cross bulkheads, rod elements is completely unclear.

The supplementary search report has been based on the last set of claims valid and available at the start of the search.
