DESIGN.

L. HILL.
BOOT OR SHOE.

No. 25,188. Patented Feb. 18, 1896.
UNITED STATES PATENT OFFICE.

LEBBEUS HILL, OF LYNN, MASSACHUSETTS.

DESIGN FOR A BOOT OR SHOE.

SPECIFICATION forming part of Design No. 25,188, dated February 18, 1896.

To all whom it may concern:

Be it known that I, LEBBEUS HILL, a citizen of the United States, residing at Lynn, county of Essex, State of Massachusetts, have invented a new and original Design for a Boot or Shoe, of which the following is a specification, reference being had to the accompanying drawing, forming part thereof.

The drawing represents in side elevation a shoe showing my design.

The leading feature of my design consists in a main gore at the side of the shoe and narrow auxiliary gores in the leg portion of the shoe adjacent the front and rear vertical lines of the said leg portion.

Referring to the drawing, the shoe A has its main side gore B extended downward and toward the fore part of the shoe, its front edge b conforming approximately to the curvature of the instep-line a of the shoe.

The leg portion A' of the shoe has in its side two narrow auxiliary gores b' and b'' near and approximating in the direction of their length the trend of the adjacent front and rear vertical lines a' and a'' respectively of the said leg portion.

I claim—

The design for a boot or shoe, substantially as herein set forth.

In testimony whereof I have signed my name to this specification in the presence of two subscribing witnesses.

LEBBEUS HILL.

Witnesses:

JOHN C. EDWARDS,

FREDERICK L. EMERY.
