(54) Title of the Invention: **Transferring tokens between blockchain networks**
 Abstract Title: **Transferring tokens between blockchain networks**

(57) The invention relates to a method for transferring at least one source token of a source set of tokens from a source blockchain of a source blockchain network to a target blockchain of a target blockchain network. The method comprises providing an approval of the transfer, initiating an issuing transaction of at least one target token in the target blockchain of the target blockchain network, and verifying an annihilation of the at least one source token in the source blockchain of the source blockchain network.
