Abstract: An article of footwear comfortably accommodating different foot sizes is disclosed. The article comprises an upper, sole and integrally formed cleat members made of a monolithic material. In addition, the article can include an integrally formed internal cushioning system. The article further includes grooves and/or perforations that assist the footwear in stretching to accommodate different foot sizes.

- Special categories of cited documents:
  - *v* document defining the general state of the art which is not considered to be of particular relevance
  - *e* earlier document but published on or after the international filing date
  - *l* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
  - *o* document referring to an oral disclosure, use, exhibition or other means
  - *p* document published prior to the international filing date but later than the priority date claimed
  - *t* later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
  - *x* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
  - *y* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
  - *z* document member of the same patent family

INTERNATIONAL SEARCH REPORT

Box No. II  Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)

This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. □ Claims Nos.:
   because they relate to subject matter not required to be searched by this Authority, namely:

2. □ Claims Nos.:
   because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:

3. □ Claims Nos.:
   because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 44(a).

Box No. III  Observations where unity of invention is lacking (Continuation of item 3 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

see additional sheet

1. □ As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.

2. □ As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of additional fees.

3. □ As only some of the required additional search fees were timely paid by the applicant, this international search report covers:
   0) Withdrawing international search of invention(s) (inventor(s)): if not paid properly or not at all.

4. □ No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:
   1-3, 6, 7, 14-20

Remark on Protest

□ The additional search fees were accompanied by the applicant's protest and, where applicable, the payment of a protest fee.

□ These additional search fees were accompanied by the applicant's protest but the applicable protest seems excessive in relation to the time limit specified in the invitation.

□ No protest accompanied the payment of additional search fees.

Form PCT/ISA/210 (patent family annex) (April 2009)
This International Searching Authority found multiple (groups of) inventions in this international application, as follows:

1. claims: 1-3, 6, 7, 14-20
   A shoe with cleats and a groove for accommodating the shoe to different foot sizes.

2. claims: 1, 4, 5, 8-13
   A shoe with cleats and cushioning members integrally formed with an inner portion of the sole.
