(54) Title: VISUAL PRESENTATION OF INFORMATION IN MULTIPLE DIMENSIONS

(57) Abstract: A method for using a server computer (222) to search for various travel-related products stored in a database (14, 16, 18, or 20) based on desired travel product attributes inputted by a user through a interface (10) on a computer (220). Using the user interface (10) to displaying the results of the search in a multi-dimensional table, so that at least one of the parameters of the table is determined by the desired travel product attributes selected by the user.

* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T"

later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X"

document of particular relevance: the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y"

document of particular relevance: the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
