(54) Title: DEVICES, METHODS, AND GRAPHICAL USER INTERFACES FOR ENABLING DISPLAY MANAGEMENT OF PARTICIPANT DEVICES

(57) Abstract: A method includes receiving a request to display device status information for participant devices corresponding to participants in a group included on a roster, wherein a participant in the group is associated with a participant device. In response to receiving the request to display the device status information for the participant devices, displaying, respective graphical representations that include respective device status indicators for a respective set of the participants in the group, including concurrently displaying, on the display, a first graphical representation of a first participant in the group including a first device status indicator providing a status of a first participant device, associated with the first participant and a second graphical representation of a second participant in the group including a second device status indicator providing a status of a second participant device, associated with the second participant, that is different from the first device status indicator.

A. CLASSIFICATION OF SUBJECT MATTER
INV. G09B5/08
ADD.

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED
Minimum documentation searched (classification system followed by classification symbols)
G09B

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)
EPO-Internal

* Special categories of cited documents :

- "A" document defining the general state of the art which is not considered to be of particular relevance
- "E" earlier application or patent but published on or after the international filing date
- "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- "O" document referring to an oral disclosure, use, exhibition or other means
- "P" document published prior to the international filing date but later than the priority date claimed

- "T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
- "&" document member of the same patent family
