(54) Title: DIGITAL CONTENT DELIVERY

Fig. 1

(57) Abstract: Methods, apparatus, systems and machine readable medium for the delivery of digital content are disclosed herein. An example method includes receiving a first document from a first document source, classifying the first document with a first tag based on a type of the document, classifying the first document with a second tag based on a first intended recipient, encrypting the first document, publishing the first document for receipt by the first intended recipient, verifying an identity of the first intended recipient and granting the first recipient access to the first document based on the verified identity.

**A. CLASSIFICATION OF SUBJECT MATTER****G06Q 50/10(2012.01)**

According to International Patent Classification (IPC) or to both national classification and IPC

**B. FIELDS SEARCHED**

Minimum documentation searched (classification system followed by classification symbols)

G06Q 50/10; G06F 17/30; G06Q 30/00; G06F 17/60; H04L 9/00

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Korean utility models and applications for utility models

Japanese utility models and applications for utility models

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

eKOMPASS(KIPO internal) &amp; Keywords: tag, content, encrypt, access, metadata

\* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
