54 Fixing structure particularly for floating wharves.

57 The fixing structure comprises a plurality of oscillatable rods (1) having at each end thereof a coupling flange (2a) defining eyelets which are pivotally connected via a pin (8) to the eyelet of a respective plate (4) for connection to the wharf (5) and the shore (6). Braces (11) are provided between the rods (1) and brackets (20) pivotally connect a gangplank (23) extending from the shore (6) to the wharf (5).
