(54) Title: NOTES PAGE SHARING AND NOTIFICATION FEATURES

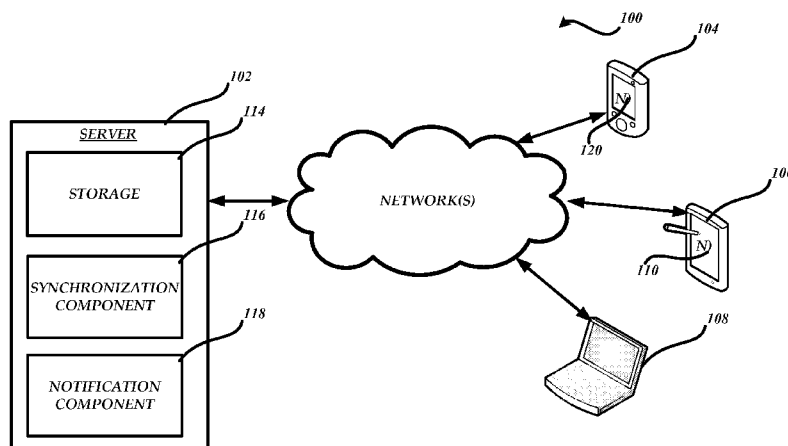

FIGURE 1

(57) Abstract: Embodiments provide notes application features including notes page sharing and notification features, but the embodiments are not so limited. In an embodiment, a computer-based method can be configured to provide a communication to one or more designated recipients, wherein the communication includes one of a view link to a shared page or an editable shared notes page or link thereto. A system of an embodiment includes a server computer configured in part to process notes page sharing requests as part of creating view links to shared notes pages and/or providing users with a means to collaboratively edit a shared notes page. A user interface of an embodiment is configured to share notes pages including displaying notification information regarding other user shared notes page views and/or edits. Other embodiments are included.
