(57) **CLAIM**

The ornamental design for a smart projection system, as shown and described.

DESCRIPTION

FIG. 1 illustrates a perspective view of the smart projection system according to the present invention; FIG. 2 illustrates another perspective view of the smart projection system according to the present invention; FIG. 3 illustrates the top view of the smart projection system according to the present invention; FIG. 4 illustrates the bottom view of the smart projection system according to the present invention; FIG. 5 illustrates the front view of the smart projection system according to the present invention; FIG. 6 illustrates the back view of the smart projection system according to the present invention; FIG. 7 illustrates the right side view of the smart projection system according to the present invention; and, FIG. 8 illustrates the left side view of the smart projection system according to the present invention.

The smart projection system indicates trademark application UMBO™ as set out in USPTO Trademark application Ser. No. 87131273. The trademark UMBO™ forms part of the claimed design.

UMBO™ represents the trademark application of Umbo, Inc. CORPORATION DELAWARE 3rd Floor 28 Second Street San Francisco CALIFORNIA 94105, Ser. No. 87131273, filed Aug. 8, 2016.

The broken lines shown in FIGS. 1, 3, and 5 forms no part of the claimed design.
