(54) Title: DYNAMIC BODY STATE DISPLAY DEVICE

(57) Abstract: Dynamic body state display device, which is wearable by a person on the body and which is at least partly flexible, wherein the device comprises a dynamic body state sensor for measuring the dynamic body state, a storage arrangement for storing information specifying dynamic body state ranges, a processing circuit configured to process the measured dynamic body state and determine the corresponding dynamic body state range, and an at least partly flexible structure, that can be worn on the body, wherein the at least partly flexible structure comprises a display for visually indicating said corresponding dynamic body state range.

(88) Date of publication of the international search report:
2 May 2008

INTERNATIONAL SEARCH REPORT

International application No

PCT/IB2007/053178

A. CLASSIFICATION OF SUBJECT MATTER
 INV. A61B5/024 A41D13/12

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

A61B A41D G06F

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)

EPO-Internal, WPI Data

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X	US 2002/019586 A1 (TELLER ERIC [US] ET AL) 14 February 2002 (2002-02-14) cited in the application paragraph [0043] - paragraph [0050] table 1 paragraph [0057] paragraph [0096] - paragraph [0106] paragraph [0109] - paragraph [0123] figures 5-17 figures 20,21	1,2,4-6, 8,10-18
Y	----- -/--	3,7,9, 19,20

☒ Further documents are listed in the continuation of Box C.

☒ See patent family annex.

* Special categories of cited documents :

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier document but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.

"&" document member of the same patent family

Date of the actual completion of the international search
