CLAIM

The ornamental design for a display panel with an animated computer icon, substantially as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image in a sequence for a display panel with an animated computer icon, showing our new design.

FIG. 2 is a front view of the second image in the sequence; FIG. 3 is a front view of the third image in the sequence; FIG. 4 is a front view of the fourth image in the sequence; FIG. 5 is a front view of the fifth image in the sequence; FIG. 6 is a front view of the sixth image in the sequence; and, FIG. 7 is a front view of the seventh image in the sequence. The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-7. The process or period in which the images transition form no part of the claimed design. The broken lines showing a portion of the display panel and portions of the animated computer icon are included for the purpose of illustrating portions of the article and form no part of the claimed design. The curved outer solid line represents a portion of the display panel, which forms part of the claimed design.
