(54) Title: HEALTH CARE INFORMATION SYSTEMS

FIG. 6

(57) Abstract: A health care information provider system may provide information about health care objects managed by a health care provider. A name generating system may generate an object name for each of the health care objects which may include provider information indicative of the identity of the health care provider which manages the health care object, and object information indicative of the identity of the health care object. The object information may be devoid of any personal health information, even in a form which can be decrypted by a decryption key. A computer system appliance may protect the privacy of medical record information stored in a computer information storage system and may include a medical record distribution compartment, a medical record acquisition compartment, and a security compartment. The medical record distribution compartment and the medical record acquisition compartment may be configured to communicate with one another only through the security compartment.

A. CLASSIFICATION OF SUBJECT MATTER**G06Q 50/00(2006.01)i, G06F 21/24(2006.01)i**

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

G06Q 50/00; G06F 17/30; G06F 17/60; G06F 12/14; G06Q 10/00; G06F 21/24

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Korean utility models and applications for utility models

Japanese utility models and applications for utility models

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

eKOMPASS(KIPO internal) & Keywords: privacy of medical record, security, HIPPA

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.

 Further documents are listed in the continuation of Box C. See patent family annex.

* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&" document member of the same patent family
